

PROFESSIONAL SUMMARY

Results-driven **Senior Software Developer** with over 4 years of experience architecting, developing, and deploying robust web and mobile applications alongside custom enterprise Salesforce solutions. Expert in **React.js, React Native, Next.js, Node.js, Python (FastAPI/Flask), TypeScript, ASP.NET Core, and PostgreSQL**. Extensive platform mastery in **Salesforce Apex, Triggers, Batch Apex, Aura Components, and Lightning Web Components (LWC)**. Proven track record in building high-throughput RESTful APIs/JSON web services, containerizing microservices with **Docker and Kubernetes**, deploying to **Microsoft Azure** and **AWS**, implementing advanced authentication (**OAuth 2.0, JWT, OpenID Connect, Azure AD**), and leveraging AI-assisted development tools (GitHub Copilot, ChatGPT) to deliver secure, scalable enterprise software.

TECHNICAL SKILLS

Frontend & Mobile:	React.js, React Native, Flutter, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3/SCSS, Tailwind CSS, Bootstrap, Material UI, Redux, Formik, Yup, Vite, jQuery
Backend & APIs:	Node.js, Python (FastAPI, Flask), ASP.NET Core, PHP, RESTful APIs, JSON Web Services, Axios, NodeMailer
Salesforce Platform:	Apex Classes & Triggers, Batch Apex, Lightning Web Components (LWC), Aura Components, SOQL, Flows, Process Builder, Validation Rules, Sharing Rules & Profiles
Databases:	PostgreSQL, MySQL, SQL Server (T-SQL), MongoDB, Database Design & Query Optimization
Cloud & DevOps:	Microsoft Azure (App Services, Functions, Azure AD, Blob Storage), AWS (S3, ECS/ECR), Docker, Kubernetes, CI/CD Pipelines, Git, GitHub, Azure DevOps
Security & Testing:	OAuth 2.0, JWT, OpenID Connect, Auth0 (SSO/Passwordless), RBAC, CORS, CSRF, Jest, PyTest, Postman, Browser DevTools
AI & Methodologies:	GitHub Copilot, ChatGPT, Cursor AI, Agile/Scrum, Sprint Planning, Jira, Bitbucket, SourceTree

PROFESSIONAL EXPERIENCE

Salem Infotech Private Limited — Senior Software Developer October 2021 – Present | Product Engineering (Chennai, India)

Full Stack Web & Mobile Engineering

- Architected, developed, and maintained high-performance web and cross-platform mobile applications using **React.js, React Native, Next.js, Node.js, Python (FastAPI), TypeScript, and PostgreSQL**.
- Designed and implemented modular **RESTful APIs and JSON-based web services** supporting high-concurrency client-server communication and low-latency database transactions.
- Engineered responsive, pixel-perfect user interfaces utilizing **Tailwind CSS, Bootstrap, Material UI**, and modern UI/UX design standards.
- Implemented enterprise security and authentication protocols using **Azure AD, Auth0, OAuth 2.0, OpenID Connect, and JWT** with fine-grained Role-Based Access Control (RBAC).
- Integrated critical third-party ecosystems including **Stripe** (global payment processing), **Twilio** (SMS/telephony notifications), **Zoho Chat**, **Firebase**, **Google Tag Manager**, and **Microsoft Clarity**.
- Containerized backend microservices using **Docker & Kubernetes** and deployed cloud workloads across **Microsoft Azure** (App Services, Functions) and **AWS**.
- Established automated **CI/CD pipelines via GitHub Actions and Azure DevOps**; maintained high testing reliability using **Jest, PyTest, and Postman**.
- Utilized AI-assisted engineering tools (**GitHub Copilot, ChatGPT, Cursor AI**) and secure coding practices to increase sprint velocity and optimize code maintainability.
- Mentored junior software engineers, conducted peer code reviews, and enforced team-wide architectural guidelines.

Salesforce Development & Architecture

- Engineered custom enterprise CRM solutions utilizing **Apex Classes, Apex Triggers, Batch Apex, and Lightning Web Components (LWC)**.
- Automated mission-critical business workflows using **Salesforce Flows, Process Builders, Validation Rules, and Approval Processes**.
- Configured robust data governance and security models including Custom Profiles, Permission Sets, Role Hierarchies, and OWD/Sharing Rules.
- Constructed complex custom object schemas, master-detail/lookup relationships, and optimized SOQL queries adhering strictly to governor limits.
- Built executive analytical reports and interactive operational dashboards to deliver actionable insights on key conversion metrics.
- Trained and mentored junior Salesforce developers in Apex development patterns and LWC component architecture.

KEY PROJECTS

DRT – Doctor Request Tracking & Marketing Automation Platform | Full Stack Developer

Tech Stack: React.js, Next.js, Node.js, TypeScript, PostgreSQL, REST APIs, Tailwind CSS, Twilio

- Developed an end-to-end marketing and field-force automation application tracking medical representative interactions, doctor conversion requests, and promotional campaigns.
- Engineered multi-level hierarchical approval workflows for marketing budgets, doctor conversion approvals, and sample disbursement tracking.
- Built real-time marketing analytics dashboards visualizing representative territory performance, campaign ROI, and monthly engagement metrics.

VMRF – University Research Project & Grant Fund Allocation System | Full Stack Developer

Tech Stack: React.js, Python (FastAPI), MySQL, Azure AD, RESTful APIs

- Architected a centralized fund allocation and research grant management system for university faculty, departments, and research scholars.
- Implemented multi-stage grant application review pipelines, milestone tracking, fund disbursement auditing, and automated budget utilization reports.
- Secured faculty and institutional administrative portals using Azure AD SSO and fine-grained Role-Based Access Control (RBAC) over normalized MySQL schemas.

Medical Tourism Management Platform | Full Stack Developer

Tech Stack: React.js, Next.js, Node.js, Python (FastAPI), TypeScript, PostgreSQL, REST APIs, OAuth 2.0, Tailwind CSS

- Engineered a multi-tier web portal managing patient intake, hospital coordination, medical case files, quotations, and international billing.
- Implemented strict RBAC separating patient, doctor, hospital coordinator, and finance team permissions with high data confidentiality standards.
- Designed normalized PostgreSQL database structures and optimized query performance for rapid case history retrieval.

Healthcare and Membership Management Platform | Full Stack / Mobile Developer

Tech Stack: React Native, React.js, Next.js, Node.js, PostgreSQL, Auth0, Stripe API, Material UI

- Developed web and cross-platform mobile interfaces in React Native and React.js for corporate membership management and employee onboarding.
- Implemented automated subscription renewal pipelines with seamless Stripe payment processing and multi-tier billing models.
- Integrated secure passwordless and Single Sign-On (SSO) authentication flows leveraging Auth0, OpenID Connect, and Azure AD over a high-throughput PostgreSQL backend.

Enterprise Salesforce Custom CRM Application | Salesforce Developer

Tech Stack: Salesforce Platform, Apex, SOQL, Lightning Web Components (LWC), Aura Components, Flows

- Developed responsive Lightning Web Components (LWC) styled with custom CSS to modernize legacy CRM user interfaces for operational teams.
- Constructed complex custom object data models with master-detail/lookup relationships and optimized Apex triggers adhering strictly to governor limits.

CERTIFICATIONS

Salesforce Certified Platform Developer I (PD1)
Salesforce Certified JavaScript Developer I
Salesforce Certified Administrator (SCA)
Salesforce Certified Associate
Scrum Fundamentals Certified Jira Fundamentals

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science & Eng.	2020
Coimbatore Institute of Technology	
Diploma – Computer Science & Engineering	2017
Muthayammal Polytechnic College	
Higher Secondary Education – Class XII	2013
Government Higher Secondary School
